Seeking a new way to help your students figure out their options after school?

At TAFE Queensland Brisbane, we understand how hard this can be. It is with this in mind that we have created the Season Schools Program – a series of insightful, hands-on workshops focused on specific industry and study areas, where students in years 10, 11 and 12 can discover firsthand the ins and outs of a potential study pathway.

To register your interest, please come to room B10 at school and see Mrs Vicki Schafer during your breaks.
