RSVP
By Friday, 21 April 2017

The University of Queensland together with Digital Careers and Australian Computer Society invite years 8 to 12 girls and their parents, for a night of inspiration and empowerment.

Hear from our alumni speakers as they share their experience of studying technology and now working in the industry.

You'll also meet our current female students and learn what it is like to study information technology at UQ.

After the talks, there will be an opportunity to try fun hands-on activities like creating your own binary bracelet, view student displays, experience virtual reality and get more information.

We are looking forward to seeing you at UQ!
