

World Challenge presents the Cavendish Road State High School expedition to Nepal!

Dear Parent,

We are excited to announce the imminent launch of next year's expedition to Nepal with World Challenge, offering students the opportunity to plan, fund and ultimately lead their own 3 week expedition to Nepal in November/ December 2018!

Who is World Challenge?

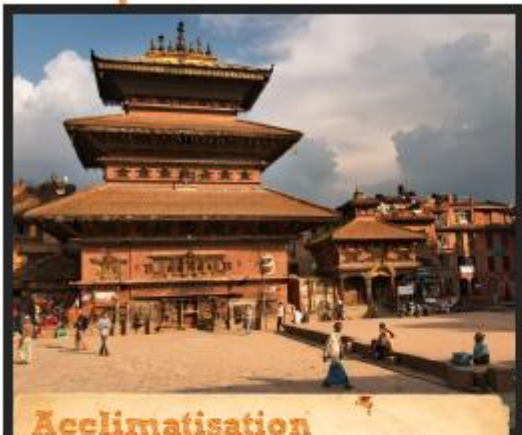

World Challenge is a pioneering educational organisation with 30 years of experience in delivering personal development expeditions for students. The expedition is preceded by a training and preparation program, during which students play a major role in planning their itinerary, which will include project work in a local community and a challenging trek.

Students are also supported in setting and achieving individual and team fundraising goals to help cover the cost of the expedition program, where on average, students earn over half of the total program cost.

Nepal

Acclimatisation

Acclimatisation can be spent around the Kathmandu area before setting out on the trek. Although there are no short acclimatisation treks in Nepal the main trek is arranged so that you can acclimatise slowly before gaining much altitude.

Trekking

Trek up to 4500m with spectacular views in the Langtang region or visit the Annapurna range near Pokhara for some panoramic views. All treks are fully supported by porters and guides and although it's challenging, the views of the surrounding Himalaya are stunning!

Community Engagement

Teams work in orphanages or schools, organising activities for the children and doing much needed renovation work on often very sparse buildings.

R&R

Teams may choose to spend time visiting the temples of Kathmandu, exploring Durbar Square, going on safari in Chitwan National Park or relaxing on the lake shores of Pokhara.
