

ROBOGALS UQ

Diversity Drives Innovation

Our Mission

We believe diversity is the driving force of innovation. Therefore, Robogals UQ holds inspiring workshop to promote STEM fields to young women.

Girls in Robotics Day

In school holidays, we hold all-day, girls' workshops called *Girls in Robotics Day* at the University of Queensland. These workshops aim to inspire young minds through the use of lego robots. For more info & booking check our website.

Science Challenge

Robogals' Science Challenge is a national, online competition for girls. This enables young minds to learn about engineering through conducting projects at home with a friend or parent. For more info, please email scichal@robogals.org
